Gyalpozhing College of Information Technology, Kabjisa, Thimphu

PROFILE

Adaptable Computer Science graduate from Gyalpozhing College of Information Technology, specializing in Full-Stack Development. My educational background, combined with strong problem-solving and programming skills, allows me to develop efficient, scalable, and user-friendly web and mobile applications. This enables me to integrate seamlessly into your team and contribute to delivering high-quality, innovative software solutions across platforms.

SKILLS

Hard Skills

- Frontend Development : HTML, CSS, JavaScript, React.js
- Backend Development: Node.js, Python
- UI/UX Design : Figma, Wireframing, Prototyping
- Cybersecurity: Kali Linux, Nmap and Ethical Hacking
- Database Management : MongoDB, MySQL, PostgreSQL

Soft Skills

- Team Work and collaboration
 - Time management
 - Adaptability
 - Open-minded
 - Organized
 - Punctuality
-

EXPERIENCE

INTERNSHIP EXPERIENCE

Intern

Dragon Coders Private Limited, Thimphu

Dec 2025 - Jan 2026

- Gained hands-on experience in backend development using Python (FastAPI) in a real-world company environment.
- Developed a full-featured Project Management System within one month.
- Learned how real-life industry workflows operate and gained insight into how software development works in practice.

CLUBS AND EXTRACURRICULAR EXPERIENCE

GCIT Tarayana Club Member

Aug 2025 - June 2026

- Active member of the club, participating in its activities and initiatives.
- Volunteered whenever possible to support community service programs and contribute to social causes.

GCIT Literary and Interactive Club (LIA)

Aug 2022 - June 2025

- Actively participated in club activities and events.
 - Engaged in photography practice to improve skills and contributed by actively supporting and helping in club initiatives.
-

EDUCATION

BSc in Computer Science

Aug 2022 - June 2026

Gyalpozhing College of Information Technology

Major Courses (Full-Stack Development)

- Modern Database Design (CSC105)
- Design for User Interactions (CSC106)
- Backend Development (CSC103)
- Data Analytics and Visualization (CSA202)
- Applied Data Structures and Algorithms (CSC201)
- Cyber Growth Conversation (ELE101)
- Front-End Web Development (CSF301)
- Mobile Application Development(CSF301)

High School

2020-2022

Pure Science

Karma academy,Paro

PROJECTS

Dragon Coders Privated limited
Project Management System
Role: Fullstack Developer

Dec 2025 - Jan 2026

- Developed a Project Management System with role-based access (Manager, Developer, Tester)
- Enabled task assignment and real-time status updates for team collaboration
- Implemented a Kanban board for efficient workflow, inspired by Asana

Website and Hotel Management System for Resort Thim Dorji
Role: Backend Developer

Aug 2025 - Dec 2025

- Developed a website and admin dashboard for Resort Thim Dorji
- Enabled real-time updates for room availability, facilities, and website content
- Integrated booking functionality with full admin control over the system

EMS-Employee Management System
Role: Backend Developer

Feb 2025- June 2025

- Developed a Task Management System using Spring Boot with role-based access (Admin, Employees)
- Enabled task assignment, tracking, status updates, and automated reminders
- Included a leave application feature for employees within the platform

Game Development

Aug 2024 - Dec 2024

Role: FullStack Developer

- Developed a 2D game using design patterns featuring a rabbit collecting fruits while avoiding obstacles
- Implemented power-ups (speed boost), life system, and obstacle mechanics (bombs)
- Designed multiple levels to enhance gameplay and difficulty progression

GCIT News

Feb 2024 - June 2024

Role: Backend Developer

- Developed a GCIT News App using React Native
- Enabled users to view, post, like, comment, favorite, and report news
- Implemented admin verification to ensure moderated and reliable content

ImagineAI

Aug 2023 - Dec 2023

Role: Frontend Developer

- Worked as Frontend Developer on Imagine AI, creating an interface for AI-powered image generation
- Built prompt-based image generation functionality for users
- Designed a user-friendly and interactive experience for seamless AI interaction

CERTIFICATIONS

Google UX Design Certificate – Coursera

Aug 2025 - Dec 2025

Completed 7 courses, covering user-centered design, wireframing, prototyping, usability testing, and UX research.

AWS Academy Cloud Foundations

Aug 2024 - Dec 2024

Gained foundational knowledge of cloud computing concepts, AWS core services, security, pricing, and architecture.

ACHIEVEMENTS

Capture the Flag (CTF) Cybersecurity Event – Participant

Oct 2025

Participated in a cybersecurity competition involving problem-solving, cryptography, and security challenges.

Academic Excellence Award - High school

2018,2017

Achieved $\geq 70\%$ in Classes 10 and 11

Performed consistently well in school

LANGUAGES

Dzongkha (Native)

English (Professional working proficiency)

Hindi (Elementary proficiency)

Tsangla(Mother Tongue)
